The East Lyme Public Schools Administrator Evaluation and Development Plan is designed to provide a comprehensive and effective means to assist each administrator to become the very best educational leader and to fulfill all pertinent leadership functions in an exemplary manner. In recognition of these goals, the plan includes the following:

- Recognition that administrators will require different levels of support during the developmental phases of an administrator's career: induction phase; growth phase; and, when necessary, a performance improvement phase;
- Multiple opportunities for feedback from the evaluator;
- A system that evaluates the administrator based on both administrative performance and student learning outcomes;
- Significant embedded professional development opportunities.

The Evaluation and Development Plan fulfills all statutory requirements of the newly enacted CSDE educator evaluation mandate. The initial year of implementation of this new plan was the 2013-2014 school year. We will assess the plan and make necessary revisions prior to each school year.

Members of the administrative team who contributed to the development of this evaluation and development plan:

Planning Team:

Dr. Judy DeLeeuw

Dr. David Miko

Dr. James D. Lombardo (retired 3/31/15)

Other contributing members: Michael Susi, Jeffrey Provost, Jason Bitgood, Jennifer Frost, Melissa DeLoreto, Linda Anania, Dr. Karen Costello, Kim Davis, Claudine Kelly, Dr. Michael Sullivan, Laurie Zaneski

INDUCTION PHASE

The Induction Phase of this plan is tailored to address administrator's specific needs as they relate to job performance. Administrators in the Induction Phase follow the timeline and process for goal setting and evaluation as defined by the Superintendent of Schools. Administrators will participate in the plan's Induction Phase until they have successfully served as an administrator for a two-year period.

Leadership induction consists of the following:

- Central Office Orientation
- Leadership Mentor Support
- Regularly scheduled observation and dialogue with the evaluator

Central Office Orientation

Each new administrator will have a scheduled meeting during the first month of their employment with appropriate members of the Central Office administrators and staff.

Leadership Mentor Assignment

As new administrators are hired into the district, the Superintendent or designee will assign a mentor to work with the new administrator during the first two years of employment. All efforts will be made to secure an ELPS employee as the mentor. If a suitable local mentor is not available, a mentor will be secured from outside the District. The mentor will be mutually agreed upon by the mentor, mentee, and the Superintendent of Schools. Time should be made available for both the mentor and the new administrator to meet as often as both feel it is needed, however, not less than bi-monthly during the first year. The mentor and mentee will determine the frequency of the meetings for the next school year.

Observed Practice

Each novice administrator is observed by his/her evaluator on at least four separate occasions prior to March 30. Observations are focused on the Connecticut School Leadership Standards. The observation form (Appendix D) is attached to this document. Observations may be planned or unannounced. The first observation is completed by October 15, and subsequent observations are to be completed by March 30th.

Regularly Scheduled Conferences with the Evaluator

The evaluator will meet with the new administrator at least six (6) times during the first year, documenting the meetings using Form A. The evaluator is responsible for specific induction activities, particularly those directly related to the administrator's specific job description and those directly associated with the administrator evaluation plan. The evaluator will assist the new administrator as he/she seeks to understand the district's standards and performance indicators and

expectations for the evaluation process, and will assist the new administrator in developing and understanding his/her responsibilities.

School administrators in the induction phase of the plan will meet the requirements of their job description (see Appendix A). If at any time during the Induction Phase, the new administrator is experiencing difficulty with one or more of the expectations outlined in this plan, the evaluator will work with the administrator on the areas in question and may initiate the Professional Assistance Phase by informing the new administrator via the enclosed *Notice of Placement in Professional Assistance Phase* (Form D or Form G).

Note: Regardless of the performance appraisal of a novice administrator, the Superintendent of Schools may choose not to renew the contract of a non-tenured administrator according to the requirements of CT statutes.

PROFESSIONAL GROWTH PHASE

The Professional Growth Phase is designed for experienced administrators who have successfully completed the Induction Phase. Throughout the year evaluators will make visitations and observations of practice for the purpose of both accountability and support. If necessary, conferences following these visitations will be held to identify strengths, weaknesses, and areas in need of improvement. Administrators will be evaluated using the Connecticut School Leadership Standards (Appendix B), which are based on the Interstate School Leaders Licensure Consortium (ISLLC) Standards (Appendix C). Administrators will participate in professional development opportunities. Evaluators will encourage networking and collaborative growth opportunities. Administrators will be encouraged to visit other schools or workplaces as appropriate. If at any time during the Professional Growth Phase the administrator is experiencing difficulty with one or more of the expectations outlined in this plan, the Superintendent may initiate the Professional Assistance Phase by informing the administrator via the enclosed *Notice of Placement in Professional Assistance Phase* (Form D or G).

The Professional Growth Phase incorporates the following process and timeline:

Observed Practice

Principals and central office administrators are observed at least twice during the school year. Assistant Principals are observed on four separate occasions. Written and/or verbal feedback will result from each observation.

Beginning of the Year Conference

Prior to October 15, the evaluator (Superintendent or designee) will meet with the administrator to establish goals for the year with measurable targets.

The administrator will work collaboratively with the evaluator to develop goals that are aligned with school and district initiatives. The Superintendent of Schools will define each year any requirements regarding goal development for all administrators. The goals should address school stakeholder feedback, student performance, and the administrator's own professional growth. The

goals may extend for a period of time longer than one (1) year. Data sources including, but not limited to, the following can be used as a resource when establishing goals:

- District Goals and School Improvement Plans
- Results of supervisor/evaluator, self, and staff assessment
- School/District Improvement Plan
- Connecticut Leadership Standards and ISLLC Standards
- Teacher evaluation documents
- Job description
- Observation evidence
- Formative assessment data
- Meeting agendas
- Professional development plans/reflection
- District or school performance indicators
- School Performance Index (SPI)

Mid-year written self assessment

The administrator will develop a self-assessment related to progress on annual goals in preparation for a mid-year conference with the evaluator. See the attached “Mid-year self assessment” form.

Mid-year conference

The evaluator and administrator will meet no later than February 1 to discuss progress toward fulfillment of goals. Requirements include:

- A minimum of one conference with the evaluator will occur.
- The intention of the conference is to promote the ongoing development of the administrator by reflecting on leadership to date, areas of strength, progress on annual goals, and suggestions for continued growth and improvement.
- The discussion may include changes in goal targets.

Administrator self-assessment

- Administrator submits self-assessment of written goals and gathers evidence to support the assessment. See attached template for annual self-assessment.

End of year review

- The evaluator will hold a summative conference with the administrator resulting in supervisory written feedback on the CT School Leadership Standards and yearly goals (Form C) including commendations and recommendations before June 15th.
- Administrators who are accomplishing goals and meeting district expectations will continue in the Professional Growth Phase.

September Revisions:

Upon receipt of state standardized assessment summaries, administrators will make necessary adjustments to teacher evaluations. By September 15th, the evaluator may adjust the administrator’s evaluation to reflect the success of teachers’ Student Learning Objectives, the School Performance

Indicator and the District Performance Indicator. The administrator's evaluation may only change by one rating category as a result of this review.

PROFESSIONAL ASSISTANCE PHASE

STRUCTURED SUPPORT

Structured Support is designed to provide support and direction for administrators experiencing difficulty with one or more of the expectations outlined in this plan. The superintendent or designee will initiate the Professional Assistance Phase by informing the administrator via the enclosed *Notice of Placement in Professional Assistance Phase – Structured Support* (Form D). The existence of Structured Support does not preclude immediate placement in Intensive Assistance if the concern(s) about an administrator's competence warrants such action.

Structured Support is a means by which administrators can focus on improving a particular leadership competency or competencies as outlined in the CT School Leadership Standards (CSLS) reflected in the *Structured Support Plan* (Form E). Structured Support consists of:

- The evaluator identifies a concern(s) in writing
- The evaluator and the administrator set up a specific timeline to collaborate and attempt to resolve the concern(s)
- At the conclusion of the agreed-upon time period, the evaluator will review the administrator's progress and make one of the following recommendations using the enclosed *Report on Professional Assistance Phase – Structured Support* (Form F)
 - The concern has been resolved and a goal specific to the aforementioned concern is added to the administrator's Professional Growth Plan
 - Progress has been made and the administrator remains in Structured Support for an additional period
 - The concern(s) has not been resolved and the administrator moves to Intensive Assistance

The administrator may have bargaining unit representation at all conferences if he/she desires and requests such representation.

INTENSIVE ASSISTANCE

Intensive Assistance is designed to provide support and direction for administrators experiencing significant difficulty with one or more of the expectations outlined in this plan. The Superintendent or designee will initiate the Intensive Assistance Phase by informing said administrator via the enclosed *Notice of Placement in Professional Assistance Phase – Intensive Assistance* (Form G).

If an administrator is placed in Intensive Assistance, a conference between the evaluator and the administrator will be held. The meeting will be followed by a written *Intensive Assistance Plan* (Form H) developed in collaboration with the administrator and incorporating the following:

- The evaluator identifies a concern(s) in writing
- The evaluator and the administrator set up a specific timeline to collaborate and attempt to resolve the concern(s)
- Identification of the area(s) of concern or performance deficiency
- A review of the assistance given under the Structured Support Plan (if applicable)
- Recommendations for improvement including suggested appropriate resources available to the administrator
- A reasonable timeline for determining whether there has been sufficient improvement in performance
- A monitoring system that affords the administrator the opportunity to achieve success.

At the end of the time period specified in the Intensive Assistance Plan, the evaluator will provide the administrator with a formal assessment using Form I, *Report on Professional Assistance Phase – Intensive Assistance* that includes:

- A record of the assistance that has been provided
- A record of the observations, formal conferences, and other documented evidence used to monitor performance
- An assessment of performance in the area(s) of concern or deficiency as of the date of the assessment
- A statement that the area(s) of concern or deficiency has been resolved and/or a recommendation for further administrative action which, depending on the seriousness of the area(s) of concern or deficiency, shall include, as appropriate, one of the following:
 - An extension of the terms and time limits of the existing Intensive Assistance Plan
 - A revision of the Intensive Assistance Plan to include other suggestions for improvement and additional help and an extension of the time limit
 - A recommendation for disciplinary action
 - Other administrative solutions up to and including recommendation for termination of employment

The administrator may have bargaining unit representation at all conferences if he/she desires and requests such representation.

Evaluation – Informed Professional Learning

Pursuant to Section 10-220a of the 2012 Supplement Connecticut General Statutes and the Connecticut State Guidelines for Educator Evaluation the East Lyme School District provides professional learning opportunities for all administrators based on the individual or group of individuals' needs that are identified through the evaluation process including, but not limited to: administrator mentors, administrator retreats and meetings, Regional Education Service Center and Connecticut State Department of Education professional development opportunities, and peer support groups.

Career Development and Professional Growth

The East Lyme School District provides opportunities for career development and professional growth based on performance identified through the evaluation process including but not limited to: observation of peers, mentoring/coaching early-career administrators, participating in development of administrator improvement and remediation plans for peers whose performance is developing or below standard, leading Professional Learning Communities for their peers, differentiated career pathways, and targeted professional development based on areas of need.

East Lyme Administrator Evaluation and Development Plan Measures

The East Lyme Administrator Evaluation and Support system consists of multiple measures to paint an accurate and comprehensive picture of administrator performance. All administrators will be evaluated in four categories, grouped into two major focus areas: Professional Practice and Student Outcomes.

- 1. Administrator Professional Practice Indicators:** An evaluation of the core administrative practices and skills that positively affect student learning. This focus area is comprised of two categories:
 - (a) **Observation of administrator performance and practice (40%)** as defined in the Connecticut School Leadership Standards, which articulates six domains of administrator practice
 - (b) **Stakeholder feedback (10%)** on administrator practice through surveys of appropriate parents, staff, and/or students
- 2. Student Learning Outcomes Indicators:** An evaluation of administrator contribution to student academic progress at the school or function area level. This focus area is comprised of two categories:
 - (a) **Student learning (45%)** as determined by the success of achieving state accountability and locally-determined outcome measures
 - (b) **Teacher effectiveness (5%)** as determined by aggregated teacher success in achieving student outcome goals

Scores from each of the four categories will be combined to produce a summative performance rating of Exemplary, Proficient, Developing or Below Standard. The performance levels are defined as:

Exemplary/Distinguished – Substantially exceeding indicators of performance

Proficient/Accomplished – Meeting indicators of performance

Developing – Meeting some indicators of performance but not others

Below Standard – Not meeting indicators of performance

Administrator Evaluation Process and Timeline

The annual evaluation process between an administrator and an evaluator (Superintendent or designee) is anchored by three performance conversations at the beginning, middle and end of the year. The purpose of these conversations is to clarify expectations for the evaluation process, provide comprehensive feedback to each administrator on his/her performance, set development goals and identify development opportunities. These conversations are collaborative and require reflection and preparation by both the evaluator and the administrator in order to be productive and meaningful.

Goal-Setting and Planning:

Timeframe: Target is October 15; must be completed by **November 15**

1. *Orientation on Process* – To begin the evaluation process, the Superintendent or designee meets with administrators, in a group or individually, to discuss the evaluation process and their roles and responsibilities within it. In this meeting, they will discuss any district priorities that should be reflected in administrator goals, and they will commit to set time aside for the types of collaboration required by the evaluation process.
2. *Administrator Reflection and Goal-Setting* – The administrator examines student data, prior year evaluation and survey results and the Connecticut School Leadership Standards to draft proposed administrator goal(s) in the following areas: at least one stakeholder feedback goal, at least one goal related to Teaching and Learning, at least one goal related to the administrator's professional development for the school year.
3. *Goal-Setting Conference* – The evaluator and administrator meet to discuss the proposed goals and objectives in order to arrive at mutual agreement about them. The administrator collects evidence about his/her practice and the evaluator collects evidence about the teacher's practice to support the conference. The evaluator may request revisions to the proposed goals and objectives if they do not meet approved criteria.

Mid-Year Check-In:

Timeframe: **January and February**

1. *Reflection and Preparation* – The administrator and evaluator collect and reflect on evidence to date about the administrator's practice and student learning in preparation for the check-in.
2. *Mid-Year Conference* – The evaluator and administrator complete at least one mid-year check-in conference during which they review progress on professional practice goals, student learning objective(s) (SLOs), stakeholder feedback, and the administrator's performance to date. The mid-year conference is an important point in the year for addressing concerns and reviewing results for the first half of the year. Evaluators can

deliver mid-year formative information on components of the evaluation framework for which evidence has been gathered and analyzed. If needed, administrators and evaluators can mutually agree to revisions on the strategies or approaches used and/or mid-year adjustment of goals to accommodate changes (e.g., student populations, assignment). They also discuss actions that the administrator can take and support the evaluator can provide to promote growth in his/her focus areas.

End-of-Year Summative Review:

Timeframe: May and June; must be completed by **June 15**

1. *Administrator Self-Assessment* – The administrator reviews all information and data collected during the year and completes a self-assessment for review by the evaluator. This self-assessment should focus specifically, but not necessarily exclusively, on the areas for improvement established in the goal-setting conference.
2. *Scoring* – The evaluator reviews submitted evidence, self-assessments and observation data to generate category and focus area ratings. The category ratings generate the final, summative rating. After all data, including state test data, are available, the evaluator may adjust the summative rating if the state test data change the student-related goals sufficiently to warrant a change in the final rating. Such revisions should take place as soon as state test data are available and no later than September 15.
3. *End-of-Year Conference* – The evaluator and the administrator meet to discuss all evidence collected to date and to discuss category ratings. Following the conference, the evaluator assigns a summative rating and generates a summary report of the evaluation before the end of the school year and before June 15. The Superintendent submits a final report re: administrative evaluations by June 30.

Primary Evaluators

The evaluator for most administrators will be the Superintendent of Schools, who will be responsible for the overall evaluation process, including assigning summative ratings. In addition, principals may become the primary evaluators for assistant principals, and the Assistant Superintendent may be assigned as the primary evaluator of some administrators.

Primary evaluators will have sole responsibility for assigning final summative ratings.

Ensuring Fairness and Accuracy: Evaluator Training, Monitoring and Auditing

All evaluators are required to complete extensive training on the evaluation model and must possess CT (092 or 093) administrative certification. East Lyme Public Schools will provide comprehensive training and support to all administrators to ensure that evaluators are proficient in conducting administrator evaluations.

ADMINISTRATOR PRACTICE RELATED INDICATORS

The Administrator Professional Practice Indicators portion of the ELPS administrator evaluation model focuses on the administrator's knowledge of a complex set of skills and competencies and how these are applied in an administrator's practice. This portion is comprised of two categories:

- Administrator Performance and Practice, which counts for 40%; and
- Stakeholder Feedback, which counts for 10%.

These categories will be described in detail below.

Category #1: Administrator Performance and Practice (40%)

The Administrator Performance and Practice category of the model is a comprehensive review of administrator practice measured against the CT School Leadership Standards rubric and based on multiple observations. This category comprises 40% of the summative rating. Following observations, evaluators provide administrators with specific feedback to recognize good works, to identify administrator development needs and to tailor support for those needs.

Administrator Practice Framework

The East Lyme Public Schools reviewed the research and options for a framework of administrator practice and chose to use the Connecticut School Leadership Standards. The resulting rubric (see **Appendix B**), represents the most important skills and knowledge that administrators need to successfully lead their school or administrative leadership function.

The East Lyme Administrator Practice Framework is organized into six domains (Performance Expectations), each with 4-5 components:

- Domain 1: Vision, Mission, and Goals
- Domain 2: Teaching and Learning
- Domain 3: Organizational Systems and Safety
- Domain 4: Families and Stakeholders
- Domain 5: Ethics and Integrity
- Domain 6: The Education System

Observation Process

Observations support administrators' growth and development more effectively when they are combined with timely feedback and recommendations. Multiple snapshots of practice provide a more accurate picture of performance than one or two observations per year. These observations of practice can provide valuable information about an administrator's performance and practices.

Each administrator should be observed several times per year through both formal and informal observations of practice as defined below:

- **Formal:** Scheduled observations or reviews of practice are followed by a post-observation conference, which includes both written and verbal feedback. Such observations may include faculty meetings, presentations, teacher conferences, etc.
- **Informal:** Non-scheduled reviews of practice that last at least 10 minutes and are followed by written and/or verbal feedback.

Administrator Category	Guideline Requirements
<i>First and Second Year Novice Administrators and All Assistant Principals</i>	At least 4 formal observations or reviews of practice and multiple informal reviews of practice
<i>Below Standard and Developing</i>	At least 4 formal observations and several informal reviews of practice.
<i>Proficient and Exemplary</i>	At least 2 formal observations or reviews of practice and multiple informal reviews of practice

NOTE: Examples of observations or reviews of practice include, but are not limited to: observation of data team meetings, observations of coaching/mentoring teachers, review of administrator plans or other meeting agenda and minutes; observation of PTA meetings.

Feedback

The goal of feedback is to help administrators grow as educators and leaders and to become more effective with their responsibilities. With this in mind, evaluators should be clear and direct, presenting their comments in a way that is both supportive and constructive. Feedback should include:

- specific evidence and ratings, where appropriate, on observed components of the Connecticut School Leadership Standards;
- prioritized commendations and recommendations for development actions;
- next steps and supports for the administrator can pursue to improve his/her practice; and
- a timeframe for follow up.

Rating the administrator

Administrator Performance and Practice Scoring

At the end of the year, the primary evaluator must determine a final administrator performance and practice rating and discuss this rating with the administrator during the End-of-Year Conference. The final administrator performance and practice rating will be calculated by the evaluator in a three-step process:

- 1) Evaluator holistically reviews evidence collected through observations and interactions (e.g., team meetings, conferences) and uses professional judgment to determine ratings for each of the six domains of the CT School Leadership Standards from 1.0 (below standard) to 4.0 (exemplary).
- 2) After weighting the domain of “Teaching and Learning” as twice that of the remaining five domains, the evaluator computes the average score for all domains to a tenth of a decimal to calculate an aggregate score from 1.0 to 4.0.

Each step is illustrated below:

Once a rating has been determined, it is then translated to a 1-4 score. *Below Standard* = 1 and *Exemplary* = 4. See example below for Domain 1:

Domain	Rating	Evaluator's Score
1	<i>Developing</i>	2
2	<i>Developing</i>	2
3	<i>Proficient</i>	3
4	<i>Exemplary</i>	4
5	<i>Exemplary</i>	4
6	<i>Proficient</i>	3

- 3) The evaluator applies domain weights to domain scores to calculate an overall observation of Administrator Performance and Practice rating of 1.0-4.0.

Each of the domain ratings is weighted according to importance and aggregated to form one overall rating. Strong instructional leadership is the most important criteria for effective educational leadership. Therefore, Domain 2 is weighted more than the remaining Domains.

Domain	Score	Weighting	Weighted Score
1	2.0	1	2.0
2	2.0	2	4.0
3	3.0	1	3.0
4	4.0	1	4.0
5	4.0	1	4.0
6	3.0	1	3.0
Average			3.3

Category #2: Stakeholder Feedback (10%)

Feedback from stakeholders is used to determine the remaining 10% of the Administrator Practice Indicators focus area of the ELPS model.

1. Identification of a Stakeholder Group: Parent surveys should be conducted at the whole-school level each year. In addition to data gathered from the parent survey, the building administrator will gather feedback from teachers regarding the school operation. Other administrators will identify a group of appropriate non-parent stakeholders (administrators, teachers, and/or students), and, in conjunction with the evaluator, identify a means to collect data from this group.
2. Establishing Stakeholder Feedback Goal(s): The evaluator and the administrator will come to agreement on an appropriate feedback goal that reflects both parent feedback information and feedback from the agreed upon stakeholder group. In addition, they will agree upon appropriate targets to assess reaching the designated goal.

Stakeholder Feedback Scoring

The Stakeholder Feedback rating should reflect the degree to which an administrator successfully reaches his/her stakeholder improvement targets. This task is accomplished through a review of evidence provided by the administrator and application of the following scale:

Exemplary (4)	Proficient (3)	Developing (2)	Below Standard (1)
Exceeded the goal	Met the goal	Partially met the goal	Did not meet the goal

STUDENT OUTCOMES RELATED INDICATORS

The Student Outcomes Related Indicators comprise 50% of the administrator's evaluation rating. Every administrator, whether part of a school or central office staff, is in the profession to help children learn and grow.

Student Related Indicators includes two categories:

- Student Learning which counts for 45%; and
- Teacher Effectiveness which counts for 5% of the total evaluation rating.

These categories will be described in detail below.

Category #3: Student Learning (45%)

Student Learning is assessed in equal weight by: (a) performance and progress on the academic learning measures in the state's accountability system for schools and (b) performance and growth on locally-determined measures. Each of these measures has a weight of 22.5% and together they will account for 45% of the administrator's evaluation.

The state's accountability system includes four measures of student academic learning:

1. School Performance Index (SPI) progress- changes from year to year in student achievement on Connecticut's standardized assessments.
2. SPI progress for student subgroups- changes from year to year in student achievement for subgroups on Connecticut's standardized assessments
3. SPI rating- absolute measure of student achievement on Connecticut's standardized SPI rating for student subgroups- absolute measure of student achievement for subgroups on Connecticut's standardized assessments
4. SPI rating for subgroups-

Evaluation ratings for principals on these state test measures are generated as follows:

Step 1: SPI Ratings and Progress are applied to give the administrator a score between 1 and 4, using the table below:

	Target (4)	Target (3)	Target (2)	Target (1)
SPI Progress	>125% of target progress	100-125% of target progress	50-99% of target progress	<50% of target progress
Subgroup SPI Progress	Meets performance targets for all subgroups that have SPI <88 OR all subgroups have SPI > 88 OR The school does not have any subgroups of sufficient size	Meets performance targets for 50% or more of subgroups that have SPI <88	Meets performance targets for at least one subgroup that has SPI <88	Does not meet performance target for any subgroup that has SPI <88
SPI Rating	89-100	77-88	64-76	< 64
SPI Rating for Subgroups	The gap between the "all students" group and each subgroup is <10 SPI points or all subgroups have SPI > 88 OR The school has no subgroups.	The gap between the "all students" group and 50% or more of subgroups is <10 SPI points	The gap between the "all students" group and at least one subgroup is >10 SPI points.	The gap between the "all students" group and all subgroups is >10 SPI points.

Step 2: Scores are weighted to emphasize improvement in schools below the State's SPI target of 88 and to emphasize subgroup progress and performance in schools above the target.

	SPI >88	SPI between 88 and 64	SPI <64
School Performance Index (SPI) progress from year to year	10%	50%	50%
SPI progress for student subgroups	40%	50%	50%
SPI rating	10%	0%	0%
SPI rating for student subgroups	40%	0%	0%

*For schools with no subgroups, 50% on SPI progress, 50% on SPI rating

Step 3: The weighted scores in each category are aggregated, resulting in an overall state test rating that is scored on the following scale:

Exemplary	Proficient	Developing	Below Standard
>3.5	Between 2.5 and 3.5	Between 1.5 and 2.4	Less than 1.5

The SPI data is unavailable for the 2014-2016 school years. Therefore, locally determined measures will be used for the entire 45%.

LOCALLY-DETERMINED MEASURES

Administrators establish from two to three student learning objectives (SLOs) on measures they select. In selecting measures, certain parameters apply:

- All measures must align to Connecticut learning standards. In instances where there are no such standards that apply to a subject/grade level, districts must provide evidence of alignment to research-based learning standards.
- At least one of the measures must focus on student outcomes from subjects and/or grades that not assessed on state-administered assessments.
- For administrators in high school, one measure must include the cohort graduation rate and the extended graduation rate, as defined in the State's approved application for flexibility under the Elementary and Secondary Education Act.

	SLO 1	SLO 2	SLO 3
Elementary or Middle School Principal	Non-tested subjects or grades	Broad discretion	
High School Principal	Graduation (meets the non-tested grades or subjects requirement)	Broad discretion	
Elementary or Middle School AP	Non-tested subjects or grades	Broad discretion: Indicators may focus on student results from a subset of teachers, grade levels, or subjects, consistent with the job responsibilities of the assistant principal being evaluated.	
High School AP	Graduation (meets the non-tested grades or subjects requirement)	Broad discretion: Indicators may focus on student results from a subset of teachers, grade levels, or subjects, consistent with the job responsibilities of the assistant principal being evaluated.	
Central office Administrator	(meets the non-tested grades or subjects requirement)		

Beyond these parameters, administrators have broad discretion in selecting indicators, including, but not limited to:

- Student performance or growth on state-administered assessments and/or district-adopted assessments not included in the state accountability measures (e.g., commercial content area assessments, Advanced Placement examinations, International Baccalaureate examinations).
- Students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9th and/or 10th grade credit accumulation and/or the percentage of students that pass 9th and/or 10th grade subjects most commonly associated with graduation.
- Students' performance or growth on school or classroom developed assessments in subjects and grade levels for which there are not available state assessments.

Below are a few examples of indicators, goals and SLOs:

Grade level	SLO	Indicator of Academic Growth and Development	Assessment Means
2nd Grade	Students making at least one year's worth of growth in reading	Among 2nd graders who stay in my school from September to May, 80% will make at least one year's growth in their reading skills.	MAP (NWEA)
Middle School Science	Student understanding of the science inquiry process	78% of students will attain at least the proficient or higher level on the CMT section concerning science inquiry.	7th grade CMT
High School	Credit accumulation	95% of students complete 10th grade with ___credits.	Grades

The process for selecting measures and creating SLOs should strike a balance between alignment to district student learning priorities and a focus on the most significant school-level student learning needs. A suggested process for establishing these needs follows:

- First, the district establishes student learning priorities for a given school year based on available data. These may be a continuation for multi-year improvement strategies or a new priority that emerges from achievement data.
- The principal uses available data to craft an improvement plan for the school. This is done in collaboration with other stakeholders and includes a manageable set of clear student learning targets.
- The principal chooses student learning priorities for her/his own evaluation that are (a) aligned to district priorities (unless the school is already doing well against those priorities) and (b) aligned with the school improvement plan.
- The principal chooses measures that best assess the priorities and develops clear and measurable SLOs for the chosen assessments/indicators.
- The principal shares the SLOs with her/his evaluator, informing a conversation designed to ensure that:
 - The objectives are adequately ambitious.
 - There is adequate data that can be collected to make a fair judgment about whether the administrator met the established objectives.

- The objectives are based on a review of student characteristics (e.g., mobility, attendance, demographic and learning characteristics) relevant to the assessment of the administrator on the objective.
- The professional resources are appropriate to supporting the administrator in meeting the performance targets.
- The principal and evaluator collect interim data on the SLOs to inform a mid-year conversation (which is an opportunity to assess progress and, as needed, adjust targets) and summative data to inform summative ratings.

Based on this process, administrators receive a rating for this locally determined portion, as follows:

Exemplary	Proficient	Developing	Below Standard
Met all objectives and substantially exceeded at least 2 targets	Met all objectives	Met 1 objective and made substantial progress on others	Met 0 objectives

Overall Rating on Student Learning

To arrive at an overall student learning rating, the ratings for the state assessment and the locally-determined ratings in the two categories are plotted on this matrix:

		State Test Portion			
		Exemplary	Proficient	Developing	Below Standard
Locally-determined Portion	Exemplary	Exemplary	Exemplary	Proficient	<i>Gather further information</i>

Category #4: Teacher Effectiveness (5%)

Teacher effectiveness as measured by an aggregation of teachers' success in meeting their student learning objectives (SLOs) is 5% of an administrator's evaluation.

Improving teacher effectiveness is central to a principal's role in driving improved student learning outcomes. Therefore, the principal evaluator also assesses the actions taken by the principal to increase teacher effectiveness including hiring, placement, professional development, and feedback to teachers on their performance.

As part of East Lyme's teacher evaluation state model, teachers are assessed in part on their accomplishment of SLOs. This is the basis for assessing principals' contribution to teacher effectiveness outcomes.

In order to maintain a strong focus on teachers setting ambitious SLOs for their evaluation, it is imperative that principal evaluators discuss with the principals their strategies in working with teachers to set SLOs. Without attention to this issue, there is a substantial risk of principals not encouraging teachers to set ambitious SLOs.

SUMMATIVE ADMINISTRATOR EVALUATION SCORING

Summative Scoring

The individual summative administrator evaluation rating will be based on the four parts of performance, grouped in two major focus areas: Professional Practice and Student Outcomes.

A. Professional Practice: Leadership Practice (40%) plus Stakeholder Feedback (10%) = 50%

The Practice rating derives from an administrator's performance on the six performance expectations of the leadership evaluation rubric and his/her success in achieving the stakeholder feedback goals. An overall rating of from 1.0 (below standard) to 4.0 (exemplary) is assigned by the evaluator, based on the weighted aggregation of these two areas. If in the judgment of the evaluator, the administrator took some risk in establishing significantly challenging goals, the evaluator may assign a higher rating on the rubric than the aggregation of the raw scores indicates.

Example: The administrator receives ratings as follows:

Leadership Practice:	Proficient (3.0) x 4 (to reflect weighting) = 12
Stakeholder Feedback:	Exemplary (4.0) x 1 (to reflect weighting) = 4

Initial Summative Rating: 16 divided by 5 = 3.2 (proficient)

Upon reflection the evaluator determines that the Leadership Practice Goals were sufficiently rigorous as to warrant a higher summative rating of 4.0 (exemplary).

B. Student Outcomes: Student Learning (45%) plus Teacher Effectiveness (5%) = 50%

The outcome rating derives from the two student learning measures – student learning objectives and teacher effectiveness. An overall rating of from 1.0 (below standard) to 4.0 (exemplary) is assigned by the evaluator, based on the weighted aggregate of these two measures. If in the judgment of the evaluator, the administrator took some risk in establishing significantly challenging goals, the evaluator may assign a higher rating on the rubric than the aggregation of the raw scores indicates.

Example: The administrator receives ratings as follows:

Student Learning:	Proficient (3.0) x 4.5 (to reflect weighting) = 13.5
Teacher Effectiveness:	Exemplary (4.0) x .5 (to reflect rating) = 2.0

Initial Summative Rating: 15.5 divided by 5 = 3.1 (proficient)

Upon reflection, the evaluator determines that the administrator encouraged his/her teachers to establish challenging and rigorous student learning objectives. As a result, the evaluator assigns a higher summative rating of 4.0 (exemplary).

C. Overall Rating: Practice (50%) plus Outcomes (50%) = Final Rating (100%)

The overall rating combines practice and outcome ratings per the matrix below.

Definition of Effectiveness and Ineffectiveness

“Effective” administrators generally are administrators who receive a summative rating of “proficient” or “exemplary” on the administrator evaluation rubric.

Novice administrators shall generally be deemed “effective” when said educator receives at least two sequential annual ratings of “proficient” on the evaluation rubric. A rating of “proficient” or “exemplary” in no way guarantees that a novice administrator will be offered a contract by the district for another year.

A tenured administrator shall generally be deemed “not effective” if said educator receives at least two sequential annual ratings of “developing” or one annual rating of “below standard.”

Dispute-Resolution Process

Purpose: The purpose of this procedure is to provide a method for resolving disagreements regarding the final summative report and/or rating, and interpretation of the supervision/evaluation document.

Procedure: All possible effort should be made by the administrator and evaluator to resolve disagreements informally. If the disagreement is about the evaluator's judgment regarding the level of performance and/or practice of any competency, the administrator has the option to request that additional data be collected by the evaluator and that the evaluator reconsider the original judgment. If both parties cannot come to an agreement, the administrator has the right to include his/her concerns as an addendum to the final evaluation report. The Superintendent of Schools is the final arbitrator for resolving any disagreements.

- **High expectations for all students and educators**
- **Continuous improvement for all based on evidence**

Narrative

Education leaders are accountable and have unique responsibilities for developing and implementing a vision of learning to guide organizational decisions and actions.

Education leaders guide a process for developing and revising a shared vision, strong mission, and goals that are high and achievable for every student when provided with appropriate, effective learning opportunities.

The vision, mission, and goals represent the beliefs of the school community in which all students achieve. The vision, mission, and goals become the touchstone for decisions, strategic planning, and change processes. They are regularly reviewed and adjusted, using varied sources of information and ongoing data analysis.

To be effective, processes of establishing vision, mission, and goals incorporate diverse perspectives in the broader school community and create consensus to which all can commit. While leaders engage others in developing and implementing the vision, mission, and goals, it is undeniably their responsibility to advocate for and act to increase equity and social justice.

APPENDIX A

Sec. 10-145d-XXX. Code of professional responsibility for educators

(a) Preamble

The Code of Professional Responsibility for Educators is a set of principles which the education profession expects its members to honor and follow. These principles set forth, on behalf of the education profession and the public it serves, standards to guide conduct and the judicious appraisal of conduct in situations that have professional and ethical implications. The Code adheres to the fundamental belief that the student is the foremost reason for the existence of the profession.

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professionalism. Therefore, the educator accepts both the public trust and the responsibilities to practice the profession according to the highest possible degree of ethical conduct and standards. Such responsibilities include the commitment to the students, the profession, the community and the family.

Consistent with applicable law, the Code of Professional Responsibility for Educators shall serve as a basis for decisions on issues pertaining to certification and employment. The code shall apply to all educators holding, applying or completing preparation for a certificate, authorization or permit or other credential from the State Board of Education. For the purposes of this section, “educator” includes superintendents, administrators, teachers, special services professionals, coaches, substitute teachers and paraprofessionals.
